

OLIVIA LUCIANO

SALESFORCE ADMINISTRATOR & DEVELOPER

Santa Fe, Argentina • +54 9 341 347 8225 • olivialuciano42@gmail.com • <https://cv-rosy-zeta.vercel.app>

SUMMARY

Salesforce Administrator with 3 years of hands-on experience in production environments. Strong expertise in Salesforce Administration, automation with Flows, data management, and platform optimization, with complementary Apex development skills. Experienced in translating business requirements into scalable CRM solutions and collaborating effectively with business and technical teams. Advanced English.

WORK EXPERIENCE

Salesforce Administrator, Avalian Salud (Aug 2023 - Feb 2026)

Lead end-to-end requirements analysis, solution design, configuration, and testing as the primary Salesforce Administrator. Own user access, security, data model, and core platform configuration. Design and maintain complex Flows as the main automation framework, manage large-scale data operations with Data Loader, and assess Salesforce Release Updates to ensure platform stability. Build and maintain an Einstein Bot for WhatsApp and Chat, implement Apex triggers and invocable methods when needed, and develop a custom Bash-based toolkit to automate deployments and multi-org releases using Salesforce CLI and Git, with a strong focus on process optimization and efficiency.

University Professor, Universidad Austral (May 2024 – Feb 2026)

Professor for the course "Project Management" in the University Technical Degree in Programming, covering project planning, scope definition, agile methodologies, stakeholder management, and delivery tracking. Salesforce Facilitator, guiding students through hands-on CRM learning paths, introducing core Salesforce concepts and administration fundamentals.

University Professor, Universidad Tecnológica Nacional (Aug 2024 – Dec 2024)

Taught the course "Systems Methodologies", covering Agile methodologies, Scrum, user experience, and requirements management. Supervised Professional Practice Projects (PPS), guiding students through their final degree projects.

EDUCATION
